

Hardik Sahu | Data Analytics Specialist | Biotechnology Graduate

India

+91 7000641226 • hardikprithusahu@gmail.com • in Hardik Sahu

Professional Summary

Biotechnology professional (GPA 9.06) with 18 months of experience in Python-driven data analytics, operations optimization, and ML-powered recommendation systems. Combines technical expertise in pandas, Bokeh, and SQL with domain knowledge in healthcare QA and cosmetic chemistry.

Technical Skills

- Languages & DB:** Python (pandas, matplotlib, ggplot2, Bokeh), R (dplyr, shiny, ggplot, tm, tidyr), SQL (MySQL).
- Tools & BI:** Power BI (DAX, API, Power Query), Excel (Pivot Tables, VLOOKUP, VBA), Plotly Express.
- Domains:** Data Analytics, Machine Learning, Business Analytics, Market Research.

Work Experience

Assiduous Global

Operations Trainee

Jan 2025 – Jun 2025

- India B2B:** Processed 100+ weekly POs across Amazon Vendor, Blinkit, and Swiggy with 100% accuracy. Reduced order processing delays by 15% by coordinating with logistics and inventory teams.
- US Dropshipping:** Verified 10,000+ products against vendor sites (FragranceNet, Newegg). Resolved 200+ data mismatches, improving compliance and reducing fulfillment errors by 20%.
- Shopify D2C:** Listed 1,200+ products, optimizing content to drive a 25% improvement in conversion rates.

MedTourEasy

Data Analytics Trainee

July 2024

- Developed "Analysis of Chemical Components" project using various analytics techniques.
- Praised for executing tasks within strict time frames and demonstrating strong problem-solving skills.

Zuventus Healthcare

Summer Intern

July 2023

- Performed QA tests (pyrogen, antimicrobial) on 50+ batches/week, ensuring 100% FDA/WHO compliance.
- Analyzed microbial trends, reducing risks by 15%. Automated workflows to cut reporting time by 3 hours/batch.
- Predicted microbial risks via modeling, enabling 20% faster corrective actions.

Key Projects

Cosmetics Recommendation System using Ingredient Similarity

July 2024

- Built a content-based recommendation system using word embeddings and t-SNE for dimensionality reduction.
- Created interactive visualizations with Bokeh and a customizable pipeline for user-specific filtering.

COVID-19 Analysis and Visualization

Sep 2023

- Analyzed trends using Plotly Express (choropleth maps, scatter plots) to demonstrate regional comparisons.
- Utilized Pandas for preprocessing to highlight spread and recovery trends.

Education

Dr. D.Y. Patil Biotechnology & Bioinformatics Institute

Pune, MH

B.Tech in Medical Biotechnology, GPA: 9.06

2021 – 2025

Krishna Public School

Raipur, CG

Higher Secondary Certificate (12th), 90.6%

2020

Certifications & Achievements

- Certifications:** 100 Days of Code: Python Pro Bootcamp (Udemy), Machine Learning A-Z (Udemy), Google Foundations: Data, Data, Everywhere (Coursera).
- Achievements:** Secured 1st Position in Football, Tug of War, and Basketball (ARCANE 2024); Fashion Show Coordinator (CYTOSOUL 2024).
